Turs standard article is compounded with the greatest care. Its effects are as wonderful and as satisfactory as ever. It restores gray or faded hair to

its touthful color. It removes all eruptions, itching and dandruff. It gives the head a cooling, soothing sensation of great comfort, and the scalp by its use

becomes white and clean. By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong. As,a dressing, nothing has been found so effectual or desirable.

HOW TO THAW FROZEN FLESH.

When any part of the body is frozen it should be kept perfectly quiet till it is thawed out, which should be done as promptly as possible. As freezing takes place from the surface inwardly, so thawing out of portion of flesh, without at the same time putting the blood from the heart into circulation through it, produces mortification; but by keeping the more external parts still congealed till the internal heat and the external blsod gradually suffer the more interior parts, and produce circulation of the blood as fast as the thawing takes place most of these dangers are obviated. If JAS. MILLIGAN, (formerly with Milligan the snow which is applied be colder than the frozen flesh it will still further abstract the heat and freeze it worre than before But if the snow is of the same temperature it will keep the flesh from thawing till the heat from the rest of the body shall have effected it, thus preventing gangrene. Water, in which snow or ice has been placed, so as to keep its temperature at 32° Fahrenheit is probably better than snow.

THE STORY OF A SHIRT.

A St. Louis girl made her lover a present of a white shirt, and the foolish man was so puffed up to find himself thus arrayed that he forsook the maker of the shirt and bestowed his affections on another. But the first girl decided to have satisfaction, so she provided herself with a revolver and interviewed her false lover at his boarding house. She met the unsuspecting rover and presenting the pistol told him to take off that shirt. If he hesitated he was lost. He saw desperation in those eyes and death in the pistol. He peeled and handed the girl the soiled garment, which she took on the point of her pistol and poked it into the stove.

PICKING UP A WASP .- A West Hill minister picked up a frozen wasp on the sidewalk yesterday, and, with a view to advancing the interests of science, he carried it in the house and held it by the tail while he warmed its ears over a lamp chimney. THE BAGGING FACTORY.

In yesterday's paper we noticed briefly the return of the committee sent by the Citizens' Association to Dixon, to inquire into the details connected with the manufacture of flux bagging, and also to consider the proposition made by Mr. Jorome, of that place, to remove his mill to Decatur. We understand that the committee made a thorough examination of the matter, and were fully satisfied of the truth of Mr. Jerome's statements concerning the profits of the business. An inspection of his books showed that he had rather underrated the profits in the statements he made while here, and a rigid inquiry among the business men of Dixon developed the fact that he is regarded there as get his full share from among the canone of their very best and most reliable

EDITORS REPUBLICAN :- This valley is being visited with a little young winter, the thermometer standing at zero yesterday morning, and this morning at 6° above; but this afternoon-i is quite pleasant again, with a bright sun, and the wind from the southwest. Having had such mild winter weather up to the present time, this snap freezes us all up, and you should have heard the calls for "more wood and more blankets" coming from every direction, until all in the Grand Central had been supplied. Last winter, I am told the thermometer was not lower than 10° or 12° above zero, so that this change is considered about as severe as any that visit this portion of Arkansas.

Should this weather continue here you may look for Old Matrimony to didates in Hot Springs. The want of some such stimulant to remove the bashfulness is what is the matter with offect is electrical, and that not only and jufirm are easily made victims to zation Oh, poor creatures!

You may hear the pop, pop, pop, of the pistol or shotgun, and yet these Arkansas mountaineers will not die, but remind one of the fox squirrel, which you may shoot again and again, Gibbons, one of the propiletors of this hotel, told me the other day that not less than fifty persons were shot during the spring and summer of 1874 in this town,-some of them through the head,-and yet not a single death. You may as well attempt to shoot to death a piece of sponge.

Decatur National Bank - Annual Meeting -The annual meeting of the stockholders of the Decatur National Bank was held at their banking house yesterday and resulted in the election of the following officers for the ensuing year: A. T. Hill, President; D. S. Shellabarger, Vice President; J. P. Moore, Cashier. The following gentlemen were chosen directors : A. T. Hill, W. H. Harris, James C. Lake, W. T Sylvester, D. S. Shellabarger, J. W Race, W. B. Tuell, D. W. Brenneman C J Barrackman. A comparative state ment made by the cashier of the institution of the condition of the bank from the time the present stock holders assumed control to the present time, shows yielding a satisfactory rate of interest

much larger than its warmest friends anticipated at so early a day. We are glad to notice these evidences of prosperity, in a business institution of Decatur, and feel that we may safely predict that this institution will speedily become as successful and popular as any

one in the State. We again call attention to the list of stockholders, shown in their advertisecounty.

June 26, 1871 -d&wtf. Ayer's Sarsaparilla

Is widely known as one of the mos effectual remedica ever discovered for cleansing the sys-tem and purifying the blood. It has stood the test of

markable cures. So mild as to be rafe and beneficial to children, and yet so searching as to effectually purge out the great cor-ruptions of the blood, such as the rerofalous and syphilitie contamination. Impurities, and syphilitic contamination. Impurities, or diseases that have lurked in the system for years, soon yield to this powerful antidote, and disappear. Hence its wonderful cures, many of which are publicly known, of Scrotules, and all scrotulous diseases, Ulcers, Eruptions, and eruptive disorders of the skin, Tumors. Blotches, orders of the skin, Tumors, Biotelies, Boils, Pimples, Pustules, Sores, St. Anthony's Fire, Rose or Erysipelas, Tetter, Sait Rheum, Scald Head, Ringworm, and internal Uiccrations of the Uterus, Stomach, and Liver. It also cures other complaints, to which it would not seem especially educed each as Drongs. Dysnets. sia, Fits, Neuralgia, Heart Disease, Female Weakness, Debility, and Leucorrhota, when they are manifestations of the scrofillous poisons.

It is an excellent restorer of health and strength in the Spring. By renewing the appetite and vigor of the digestive organs, it dissipates the depression and listless languor of the se ison. Even where no disorder appears, people feel better, and live longer, for cleaning the blood. The system moves on with renewed vigor and a new lease of life. PREPARED BY
